Hi all,

I just wanted to send another quick update on the subcontracting front. We sent a revised subcontract to SFEI today that should address all of their additional concerns, so I expect they will be able to sign and return fairly quickly. We are waiting for Towill to sign and return their subcontract, which they indicated they should be able to do by "mid-week" this week.

I'll let you know when we see signed subcontracts from either of these folks so we can set up some kick-off calls.

Thanks again for your patience through all of this!

Sarah Yates

Subject: Cargill Update

Hi Rob,

I just wanted to let you know that ERG sent a subcontract to Towill on Friday, 10/30/15 and Towill confirmed receipt of the subcontract. The next step is for Towill to review and sign the subcontract. After that, we will issue a fully executed subcontract and we can have them start work! The first step will be to hold a kick-off call (with EPA, ERG/PG, and Towill) to discuss our specific expectations and priorities for the work. I'll keep you posted on when we hear back from Towill with a signed subcontract.

Thanks,

Sarah Yates
